The Wellness Shop Unveils Detox Foot Patches That Work Overnight to Boost Energy and Health

Safe, Natural, Cost-Effective Body Detoxification System From Online Health Portal Delivers Results Users Can See and Feel-Without Side Effects

Waiheke Island, Auckland, New Zealand – The Wellness Shop (www.Wellness-Shop.com), an online health store and portal providing a wide range of natural health products today announced that it is offering Detox Foot Patches, which provide a safe, natural body detoxification system while people sleep that deliver noticeable results in users' energy and overall health. Manufactured in Korea, this product will now be sold to consumers and distributors worldwide through The Wellness Shop web site.

Detox Foot Patches are designed to absorb dangerous toxins, chemicals, metals, parasites and other unwanted substances collected in the body by expelling them through the feet. This process helps free blockages in the body's circulatory and lymphatic system, allowing blood to flow more freely and toxic material to be released naturally. The patches also help improve sleep quality and boost energy levels.

"Today most of us are exposed to enormous amounts of toxins and pollutants, which can cause serious damage to our bodies if not removed," said Toby Ruckert, co-founder of The Wellness Shop. "Detox Foot Patches from The Wellness Shop help eliminate these harmful toxins from the body safely and naturally, allowing you to feel healthier and more energized during the day. You'll actually see and feel the results!"

The patches can be applied to various parts of the body and there are no side effects, even if one uses them while taking other medications or supplements. They help relieve the burden of the body's immune system and its natural cleansing processes, assisting people to recover from illnesses, relieve minor aches and pains, alleviate everyday stress and make one feel more relaxed and refreshed.

The Wellness Shop Detox Foot Patches have been approved by the Food & Drug Administration (FDA). Plus, people can actually see the results, as chemicals and toxins are discharged onto the pads after several hours of use. Users may start feeling the difference in their vitality in just a few days, and there is no need to take other detox supplements in addition to wearing the patches.

"Detox Foot Patches are a very convenient and cost-effective form of total body detoxification," said Margit Brusda, co-founder and health consultant for The Wellness Shop. "Unlike with other detox products, you don't have to take a number of supplements every day to cleanse the body, and in some cases you can actually start seeing results such as better sleep and greater energy in a matter of days."

Detox Foot Patches are safe to be used by anyone, including children. The patches should not be placed over the eye area, on open sores, irritated skin or areas affected by eczema. Patches should be kept on overnight (about 8-10 hours at a time), then removed and discarded after one use. Overall detoxification with Detox Foot Patches usually takes about 30 days for the average person.

Among the substances expelled by the body onto Detox Foot Patches are aluminum, asbestos, chlorine, fluoride, formaldehyde, lead, mercury, mold, parasites, radioactive materials, stainless steel and uranium. Because Detox Foot Patches work solely with the

lymphatic system, which is responsible for removing bodily toxins, they only draw out what the body recognizes as waste.

About The Wellness Shop

The Wellness Shop was founded in March 2002 by Toby Ruckert and Margit Brusda to provide a full range of natural wellness products and extensive health information to consumers of all ages around the world. The company's mission is to create a friendly online shopping experience by combining the proprietors' experience and knowledge of health with well-known brands from carefully selected manufacturers. Today the online store offers more than 200 products, all of which have been tested and proven to work. Additionally, it provides herbs and remedies, free health consultations, recipes, resources, a newsletter and a wealth of useful information enabling people to improve and maintain their health and well-being. The founders travel worldwide to find natural remedies and products for various illnesses, diseases and conditions. The Wellness Shop aims to be the first true Internet health portal for consumers and can be reached at www.Wellness-Shop.com.
